## Start your green production process with Ecoprod's tools

### ANTICIPATE

### UNDERSTAND

### PLAN

### ACT

### MOBILISE

### PROMOTE

- Approach your project from an environmental perspective at the writing stage by analysing its impact from the first reading with the [Script Breakdown Sustainability Checklist](#);
- Calculate the (provisional and final) carbon footprint of your project with [Carbon'Clap](#);
- Calculate the score of your project and identify areas for improvement based on the [Ecoprod Label](#).
- Contact [Afnor Certification](#) AFNOR Certification to apply for the Ecoprod Label;
- Check your eligibility for financial support schemes.
- Use Ecoprod's [Guides and Practical Sheets](#), to find suitable eco-responsible solutions for drawing up your project's green production roadmap.
- Implement your green production roadmap;
- Train with Ecoprod's [online training courses](#);
- Mobilise your teams (waste sorting, etc.) during filming.
- [Communicate](#) about obtaining the Ecoprod Label and your green production process;
- Apply for the [Ecoprod Award](#) (at the Cannes Film Festival) ;
- Offset your project's carbon emissions with the [Eco-Production Forest \(voluntary carbon contribution\)](#).
